indiana

Mission: Promote scientific advancements/developments at Indiana based knowledge-based entities and encourage and support the transfer of these advances/developments to private industry.

Vision: Become a vital and recognized partner in developing Indiana's economy as companies move to modernize their operations and products. Be a leading voice for technology transfer and the collaboration of academia with industry.

What is Technology Transfer?

Process whereby ideas, discoveries, inventions, works of authorship, know-how and resources are transferred to private industry to be developed and commercialized for the benefit of the public.

ATAIN has ...

- Supported Bloomington's tech connections
- Presented technologies to trade associations
- Created Web site leading to members
- Acted as access point to the members for industry
- Shared information and practices among members
- Offered services to SBDC, legislators, and other organizations
- Supported Indiana's 21st Century Research and Technology Fund
- Helped companies find collaborators

Helps the Indiana economy, industry, and citizens.
