

About Krieg DeVault

Krieg DeVault LLP is a 140-professional, diversified law firm representing a wide variety of local, regional and national clients. Headquartered in Indianapolis, Indiana, we are a business-focused law firm with additional offices located in Central Indiana, Northwest Indiana, Chicago, Illinois, Atlanta, Georgia, and Boca Grande, Florida. Through our membership in Meritas, a respected worldwide invitation-only affiliation, the firm's ability to assist clients reaches around the world.

Health Reform ConnectSM

Health Reform ConnectSM is our health reform information service that allows us to provide you with detailed summaries of the health reform law provisions that may be important to your organization. In sum, Health Reform ConnectSM is your customized reform resource! The health reform law's provisions are far-reaching, impacting a wide range of health care providers, employers, and many others by imposing new requirements and offering many grant and other funding opportunities. Sorting through the over 490 sections of the health reform laws can be daunting! However, for many organizations, having a handle on health reform is essential to meeting compliance requirements and taking advantage of grant opportunities. So if you are looking for a cost-effective and easy way to nail down the health reform provisions that your organization should keep an eye on, Health Reform ConnectSM is your solution!

With Health Reform ConnectSM, we have created a Provision Kit for each section of the health reform laws. Each Provision Kit contains:

- A detailed summary of the applicable health reform law section;
- Important dates, including effective dates and compliance deadlines applicable to that section;
- Funding and grants originating under the identified section if any are currently available; and
- Links to related and useful materials such as:
 - o The health reform law provisions themselves;
 - o Certain Federal laws that are amended by the health reform law section;
 - o Federal regulations that have been published to date and certain other materials published by Federal government agencies.

We have created an online survey where you can select the organizational types and topic categories that are of interest to you. Based on your criteria, we will search our Health Reform ConnectSM database and let you know how many health reform law provisions are relevant to your query. You can then select from two purchase options:

1. You can purchase all of the Provision Kits that contain important and useful information on each of the provisions that relate your selected areas of interest. For each Provision Kit you purchase, you will receive email alerts for a one (1) year period, letting you know when any of your Provision Kits have been updated. Please inquire as to how you can receive email update service for subsequent years for an additional charge; or
2. You can simply purchase an Initial List of the health reform law provisions that relate to your selected areas of interest. The Initial List includes the titles and numbers of the matching health reform law sections. This Initial List is available for the low flat rate of \$300. After reviewing this list, you can choose to purchase any or all of the relevant Provision Kits.

Cost-Efficient Pricing

We designed Health Reform ConnectSM to be extremely useful to you. We also made the Provision Kits cost-efficient by pricing them in flat-rate increments, as shown below. If you purchase 10 or more Provision Kits, we'll put the cost of your Initial List (if purchased) toward the cost of your purchase.

Number of Provision Kits	Cost Per Provision Kit
1-10	\$100.00
11-20	\$95.00
21-30	\$90.00
31-40	\$85.00
41-50	\$80.00
51-125	\$75.00
126 +	\$10,000 (unlimited access)

Update Service

A thorough analysis of the health reform laws is hardly useful unless the materials on which you're relying are updated appropriately. Given the vast reach of the health reform laws, new regulations, Federal agency notices, and grant announcements are published on nearly a daily basis. In order to make our Health Reform ConnectSM products useful to you, we are constantly updating them with the source materials published by the Federal government which we find to be important to any given Provision Kit. That means, for instance, that if the Department of Health and Human Services publishes a regulation implementing a section of the health reform law, we add a hyperlink to that regulation to the applicable Provision Kit. When any of your Provision Kits are updated, we will email you with an updated version, making you aware of important new information.

Personalized Consultation Service Available

If instead of utilizing our online survey, you would rather speak personally with a health care reform attorney about how the health reform law will impact your organization and its specific facts and circumstances, we also offer our personalized attorney consultation service. This method of advice will result in a more tailored analysis of how health reform will impact your organization, while still allowing you the benefit of the work we have already done to make ourselves leading experts on the health reform law. While any attorney can read through and summarize relevant portions of the health reform law, we have already done so, putting us in a position to offer you timely and efficient advice, while effectively managing our fees.
